PROFESSIONNAL EXPERIENCE

Frontend Developer

ModelSIS 📅 02/2024 - Present 📍 Dakar, Senegal

- Building an integrated land management system using **Angular** 17 for the General Tax and Domains Directorate.
- Transforming Figma UI/UX designs into reusable **Nx** component libraries.
- Creating detailed documentation and evaluating component functionality using Storybook to enhance user experience

Web Development Instructor

Ecole Supérieure 221 📅 02/2023 - 01/2024 📍 Dakar, Sénégal

- Trained over 75 first and second-year students in web development through hands-on learning.
- Debugged and analyzed student code (**HTML, CSS, JavaScript, PHP**) with constructive feedback.
- Provided regular tech updates to boost students' technological awareness and self-learning skills.

Web Developer (Freelance)

Consulting IOT 📅 07/2022 - 10/2022 📍 France, Remote

- Developed a real-time vehicle tracking application using PHP, Leaflet, JQuery, and JsGrid.
- Implemented comprehensive route history tracking with OpenStreetMap API integration.
- Enhanced client loyalty through transparent and secure tracking features

Web Developer (Freelance)

Team Touba Façade 📅 04/2022 - 09/2022 📍 France, Remote

- Designed a facade renovation website showcasing client expertise and projects.
- Seamlessly integrated client requirements using **WordPress** and **JQuery**.
- Managed deployment and page structure to ensure complete client satisfaction.

Full Stack Web Developer

Solom 📅 09/2021 - 03/2022 📍 Belgique, Remote

- Created a Point of Sale (POS) application with inventory and sales tracking using **Angular.**
- Developed **RESTful APIs** with **Symfony** and **MySQL**, optimized through **API Platform**.
- Managed server production with Putty and frontend deployment via Vercel.

Full Stack Web Developer

Sonatel 📅 10/2021 - 01/2022 📍 Dakar, Senegal

- Refactored and integrated enterprise risk and quality management systems using **Symfony.**
- Implemented **Keycloak** authentication for seamless single sign-on.
- Processed and tested **SOAP** and **PHP APIs** to reduce future documentation overhead.
- Collaborated on maintaining CI/CD pipelines using **BitBucket**, **Jenkins**, and **Docker.**

Web & Mobile Developer

Sonatel Academy 📅 10/2020 - 09/2021 📍 Dakar, Senegal

- Built a Trello-like project management app using JavaScript (frontend) and PHP (backend).
- Developed an E-Learning platform with PHP and MySQL using MVC and OOP principles.
- Created **RESTful API**s for a Fast-Food Delivery app with **Symfony** and API Platform.
- Integrated APIs with **Angular** and developed a mobile version using **Ionic**

EDUCATION

Master in Software Engineering (In Progress)
Cheikh Hamidou Kane University   📅 10/2023 - 10/2023   📍 Dakar, Mermoz
